## TECHNICAL SKILLS

### LANGUAGES

Scala  
Kotlin  
Java  
C/C++  
PHP

HTML  
CSS3/Less/Tailwindcss  
Python  
Typescript/Javascript  
SQL

### TOOLS & FRAMEWORK

PostgreSQL  
Cassandra  
MongoDB  
Angular & React  
Nodejs  
Git

IntelliJ products  
Atlassian products  
Software profilers  
Java/Scala test frameworks  
Client Test Frameworks  
Github/Bitbucket/Gitea

## QUICK QUALIFICATIONS

- 4.5 years of professional experience. 11 years including self teaching, personal projects, academics.
- Strong high level knowledge of overall technology stacks after years as a full stack web developer.
- Happy to work and learn any domain though my experience leans towards frontend.
- Planned and developed major features while negotiating with stakeholders and coordinating with teams of junior developers.
- Confident in my ability to adapt to new languages, tools, and tech stacks.

## WORK EXPERIENCE

- Visier Senior Software Developer (Scala, Kotlin, TypeScript, Angular, React, SQL, Quarkus, HTML, CSS/LESS) (July 2022 - February 2023)
  - ◆ Worked on Visier's Workforce Planning web application as a full stack software developer for 4 years.
  - ◆ Worked on a new web product in React/Kotlin from inception including deciding which frameworks and languages to use, as well as owning significant portions of the application.
  - ◆ Planned and developed major visual overhaul of the Workforce Planning application.
  - ◆ Collaborated closely with my teams through code reviews, whiteboarding, and design meetings.
  - ◆ Pinpointed and resolved performance issues using software profiling, code analysis, and refactoring.
  - ◆ First point of contact for resolving time-sensitive customer issues in a secure production environment.
  - ◆ Trained in leading technical interviews and participated in interviewing and hiring developers.
  - ◆ Mentored 5+ intern and junior developers by guiding them on how to think about problems, and providing insight, feedback, and support on their work.
- Visier Software Developer (February 2021 - July 2022)
- Visier Junior Software Developer (August 2019 - January 2021)
- Visier Co-op Software Developer (Sept 2016 - August 2017)

## EDUCATION

- Bachelor of Computer Science from the University of British Columbia (Completed August 2019)
